macOS High Sierra

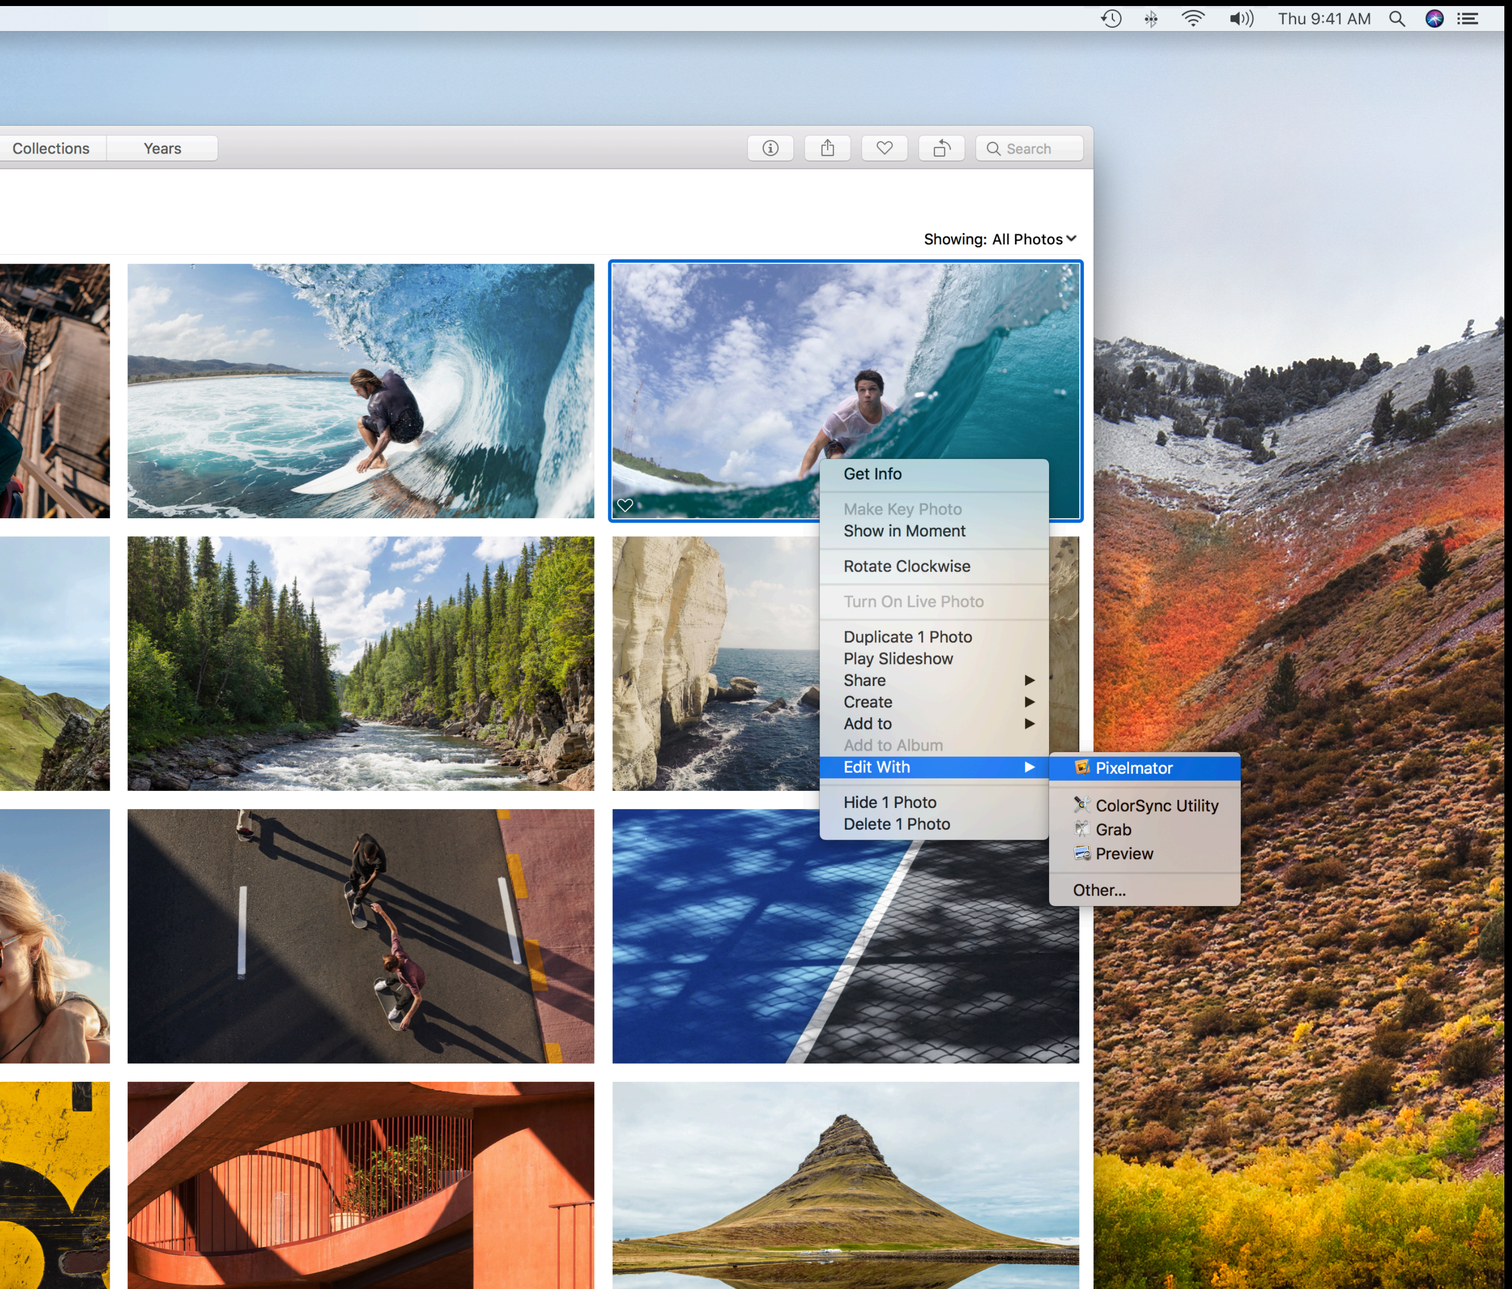
PixelmatorIs now fully compatible with the latest and greatest version of macOS — High Sierra.



Edit With Pixelmator

You can now launch Pixelmator directly from Photos and automatically save any edits you make back to the original image in your library.

Watch Video >

HEIF

With Pixelmator 3.7 Mount Whitney, you can now import HEIF images. HEIF, the High Efficiency Image File Format, is a new, much more efficient file format that reduces the file size of every photo taken with the latest iPhone models.

Other Improvements

Pixelmator 3.7 Mount Whitney also includes a faster and more accurate Repair Tool algorithm, improved support for PSD images, and a number of other improvements and fixes.
